

YOUR WHAT VIDEO

Your First 10-12 Days

This is the video where you get to show and share your products for the first time!!

Choose your favorite product from your kit, or even pick a few! Don't mention the company name or product name, and be sure that the product names are hidden when you hold them up for the camera.

End with a call to action where you say something like, "You may not even care what these products are... but if you do, shoot me a message and I'll tell you!"

When people reach out, tell them the best place to learn more is in our Modere Healthy Living & Boss Tribe Healthy Living Facebook Communities, and offer to add them.

This video should be 3-5 minutes long.
